

What do you hope to get out of today?

The insight and experience of the amazing presenters!

Be inspired, have some fun and see amazing speakers in action - plus the inimitable Tom Farrelly

A fun activity but also some serious insights into how the future of education could be better.

Inspiration and knowledge

Connect with fellow educators and have some fun in a dark time

Sharing of experience

Hope to see how we can all go forward

Fun, frolics, chance to see Tom messing with the presenters

An energy boost - much needed after a month of supporting emergency remote teaching!

What do you hope to get out of today?

Connections inspiration and Hope

To connect, learn and have a laugh with old and new friends

An hour spent in very good company

Learning, inspiration and fun in a dark time.

Some insights into how others, who work in this space, see the future.

A cure for Covid-19 :-)

I'd like to see Frank turn up late and feel the wrath of Tom.

Some inspiration for getting even better at creating exiting and fun ways of learning for different target groups.

A bit of craic and a bit of learning, perhaps a sanity check.

What do you hope to get out of today?

what is 6 in Irish. They only told me up to 5

A laugh and light relief

Insight

Hope

A bit of fun

survive the whole thing

fun and entertainment

Community and fun

A fun session with memories of #ALTC 2019!

What do you hope to get out of today?

An enjoyable evening :)

I want to see Frank try and stick to only talking for 5 mins ;-)

Some light hearted sharing of information during challenging times

a cold beer drunk with good company

Ideas on future of TEL

community inspiration :)

Ideas, energy and enthusiasm

Delighted to listen to all the speakers

the outside world!!

What do you hope to get out of today?

A bit of fun and sense of community

Connect & Learn :)

Innovation

Great speakers in good company

An idea of how things may work in a post-Covid world

hear how others are getting on

Meet and hear from some great speakers. Bring a bit of fun in learning in these very surreal times

Inspiration for a short cpd online teaching I am developing

Learn what can be achieved with some online risk taking

What do you hope to get out of today?

Deep knowledge

new ideas

insights on the landscape of
online learning in a (post)
covid-19 era

Wondering how education
will adapt

I'd like to see what the sector feels about
Covid19 so far and what impact it will have to
higher education and online learning.

an edtech virus

See what's going on in other
colleges, have the craic,
listen to the speakers

Support all you guys and
learn something

hope, care, a glimpse of the
future

What do you hope to get out of today?

A bit of fun, and something to offset the negativity of missing this at this years Edtech

Looking forward to learning

Find some degree of sanity & levity in these wacky wacky times.

Inspiration & gaining new insights :)

Connections and perspectives that might not have been possible pre-COVID. Pushing my own thinking about the future of education - online, blended, physical...

Has the future of higher education been changed forever as a consequence of COVID-19?

#Gastagoesglobal so important

Connecting with others mad/brave enough to teach online!

After the seven presentations, what do you think the future holds for (online) education?
